

CIELO SPA

CIELO SPA

With the opening of the new luxurious Cielo Spa, a new standard of pampering body care has been added.

The Spa features 14 treatment rooms, including two spacious suites – the "Red Rose Suite" with double bath and a rest area (a suite graced with red rose décor), and the regally decorated "Honeymoon Suite", it too with a double bath and a rest area.

The spa features seven massage rooms as well, for Swedish, aromathrapeutic, Thai, shiatsu, neck & shoulders, reflexology, honey, hot basalt stones, Ayurveda and combination massages. There's also a manicure/pedicure room, along with a scalp treatment station that has been outfitted with a shampooing corner and infra-red treatment lighting.

Other features of the Cielo Spa include a dry sauna, a cold drinks bar, a corner featuring a variety of teas and infusions, a large and luxurious Turkish bath ("hamam") complemented by built-in treatment beds, and rooms for post-treatment relaxation.

Two areas in the new spa have been set aside as Dead Sea treatment rooms dedicated to mud wraps and salt peeling, complete with luxurious showers, while two Cielo Beauty Treatment Rooms have been outfitted with innovative facial treatment equipment – for oxygenation treatments and for the anti ageing too, by means of the penetration of moisture into the skin.

The new Cielo Spa is open seven days a week:

Sunday – Thursday from 9: a.m. to 9:30 pm. And 9:00 a.m. to 6:00 p.m. on Fridays, Saturdays, and days prior to Jewish religious holidays.
